WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 1. Vol. XCX. Week Ended Saturday, 5th January, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 342—195 boys and 147 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 220. Of these deats 5 were due to tuberculosis and 32 to malignant neoplasms. There were 4 accidental deaths, one of which was due to a transport accident and one to drowning.

Among the deaths of infants under one year, 4 were due to pneumonia, 2 to prematurity and one to birth injury.

The total number of births registered during the week in the principal towns was 663—352 boys and 311 girls of which 184 boys and 142 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 349, of which 179 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 5th JANUARY, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 4. Vol. C. Week Ended Saturday, 26th January, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 367 — 200 boys and 167 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 212. Of these deaths 5 were due to tuberculosis and 32 to malignant neoplasms. There were 4 accidental deaths, 2 of which were due to transport accidents.

Among the deaths of infants under one year, 4 were due to prematurity, 2 to congenital malformations, one to atelectasis and one to pneumonia.

The total number of births registered during the week in the principal towns was 690—388 boys and 302 girls of which 173 boys and 126 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 338, of which 165 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 26th JANUARY, 1963, which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 5. Vol. C. Week Ended Saturday, 2nd February, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 437 — 225 boys and 212 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 236. Of these deaths 4 were due to tuberculosis and 29 to malignant neoplasms. There were 6 accidental deaths, one of which was due to a transport accident and one to carbon monoxide poisoning.

Among the deaths of infants under one year, 5 were due to pneumonia, 3 to congenital malformations, one to birth injury and one to prematurity.

The total number of births registered during the week in the principal towns was 743—394 boys and 349 girls of which 242 boys and 199 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 366, of which 194 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 2nd FEBRUARY, 1963, which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 7. Vol. C. Week Ended Saturday, 16th February, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 445—241 boys and 204 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 226. Of these deaths 2 were due to tuberculosis and 25 to malignant neoplasms. There were 3 accidental deaths, one of which was due to a transport accident.

Among the deaths of infants under one year, 2 were due to atelectasis, one to pneumonia and one to prematurity.

The total number of births registered during the week in the principal towns was 784—422 boys and 362 girls of which 182 boys and 162 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 370, of which 149 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 16th FEBRUARY, 1963, which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 10. Vol. C. Week Ended Saturday, 9th March, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 384—223 boys and 161 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 186. Of these deaths5 were due to tuberculosis and 22 to malignant neoplasms. There were 3 accidental deaths, one of which was due to a transport accident. There was one suicide.

Among the deaths of infants under one year, 5 were due to prematurity, 4 to pneumonia, 3 to congenital malformations, one to birth injury, one to atelectasis and one to measles.

The total number of births registered during the week in the principal towns was 709—407 boys and 302 girls of which 206 boys and 157 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 301, of which 153 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 9th MARCH, 1963 which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 13. Vol. C. Week Ended Saturday, 30th March, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 458—238 boys and 220 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 218. Of these deaths 8 were due to tuberculosis and 34 to malignant neoplasms. There were 6 accidental deaths, 3 of which were due to carbon monoxide poisoning and 2 to transport accidents.

There were two infant deaths under one year, one was due to congenital malformation and one to pneumonia.

The total number of births registered during the week in the principal towns was 814—422 boys and 392 girls of which 223 boys and 222 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 340, of which 222 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 30th MARCH, 1963, which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 16. Vol. C. Week Ended Saturday, 20th April, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2

The number of births registered during the week to persons normally residing in the principal towns was 331—176 boys and 155 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 204. Of these deaths one was due to tuberculosis and 37 to malignant neoplasms. There were 5 accidental deaths, 3 of which were due to transport accidents, one to drowning and one to carbon monoxide poisoning. There was one suicide.

Among the deaths of infants under one year, 3 were due to pneumonia, one to congenital malformation, one to prematurity, one to birth injury and one to atelectasis.

The total number of births registered during the week in the principal towns was 669—353 boys and 316 girls of which 177 boys and 157 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 309, of which 152 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 20th APRIL, 1963, which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 19. Vol. C. Week Ended Saturday, 11th May, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10.000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 475—224 boys and 251 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 187. Of these deaths one was due to tuberculosis and 27 to malignant neoplasms. There were 6 accidental deaths, 3 of which were due to transport accidents. There were 2 suicides.

Among the deaths of infants under one year, 4 were due to birth injury, 3 to congenital malformation, 3 to pneumonia, 3 to atelectasis and one to gastro-enteritis.

The total number of births registered during the week in the principal towns was 900—438 boys and 462 girls of which 207 boys and 233 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 293, of which 136 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 11th MAY, 1963, which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 22. Vol. C. Week Ended Saturday, 1st June, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 620—323 boys and 297 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 183. Of these deaths 4 were due to tuberculosis and 31 to malignant neoplasms. There were 5 accidental deaths, 3 of which were due to transport accidents and 2 to drowning. There was one suicide.

Among the deaths of infants under one year, 6 were due to congenital malformations and one to birth injury.

The total number of births registered during the week in the principal towns was 1128—578 boys and 550 girls of which 320 boys and 314 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 310, of which 159 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 1st JUNE, 1963, which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 25. Vol. C. Week Ended Saturday, 22nd June, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2

The number of births registered during the week to persons normally residing in the principal towns, was 499—270 boys and 229 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 157. Of these deaths, 2 were due to tuberculosis and 28 to malignant neoplasms. There were 9 accidental deaths, 3 of which were due to transport accidents, one to drowning and one to burns.

Among the deaths of infants under one year, 2 were due to congenital malformations, 2 to pneumonia, 2 to atelectasis, one to prematurity and one to gastro-enteritis.

The total number of births registered during the week in the principal towns was 870—462 boys and 408 girls of which 273 boys and 270 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 263, of which 117 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 22nd JUNE, 1963, which were assigned to the principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 28. Vol. C. Week Ended Saturday, 13th July, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 427—218 boys and 209 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 182. Of these deaths, 2 were due to tuberculosis and 31 to malignant neoplasms. There were 3 accidental deaths, one of which was due to a transport accident and one to drowning.

Among the deaths of infants under one year, 4 were due to atelectasis, 4 to birth injury, 3 to congenital malformations, one to gastro-enteritis and one to pneumonia.

The total number of births registered during the week in the principal towns was 811—434 boys and 377 girls of which 228 boys and 213 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 295, of which 156 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 13th JULY, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 29. Vol. C. Week Ended Saturday, 20th July, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 503—258 boys and 245 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 163. Of these deaths, 2 were due to tuberculosis and 39 to malignant neoplasms. There were 3 accidental deaths, one of which was due to a transport accident and one to burns.

Among the deaths of infants under one year, 9 were due to congenital malformations, 3 to prematurity, 2 to pneumonia, one to atelectasis and one to birth injury.

The total number of births registered during the week in the principal towns was 856—430 boys and 426 girls of which 251 boys and 254 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 263, of which 107 were registered in Dublin County Borough.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 30. Vol. C. Week Ended Saturday, 27th July, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 409—215 boys and 194 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 130. Of these deaths, one was due to tuberculosis and 36 to malignant neoplasms. There were 3 accidental deaths, one of which was due to a transport accident and one to an electric shock. There was one suicide.

Among the deaths of infants under one year, one was due to congenital malformations and one to a respiratory infection.

The total number of births registered during the week in the principal towns was 821—438 boys and 383 girls of which 217 boys and 191 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 229, of which 94 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 27th JULY, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 31. Vol. C. Week Ended Saturday, 3rd August, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 388—205 boys and 183 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 144. Of these deaths, 2 were due to tuberculosis and 19 to malignant neoplasms. There were 7 accidental deaths, one of which was due to a transport accident and one to burns.

Among the deaths of infants under one year, 3 were due to congenital malformations, 2 to pneumonia and one to atelectasis.

The total number of births registered during the week in the principal towns was 768—397 boys and 371 girls of which 200 boys and 176 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 237, of which 119 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 3rd AUGUST, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 34. Vol. C. Week Ended Saturday, 24th August, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 395—214 boys and 181 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 137. Of these deaths, 29 were due to malignant neoplasms. There were 5 accidental deaths, 2 of which were due to transport accidents. There was one suicide.

Among the deaths of infants under one year, 5 were due to prematurity, 2 to pneumonia and 2 to congenital malformations.

The total number of births registered during the week in the principal towns was 786—402 boys and 384 girls, of which 189 boys and 191 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 212, of which 96 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 24th AUGUST, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 37. Vol. C. Week Ended Saturday, 14th September, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2

The number of births registered during the week to persons normally residing in the principal towns, was 411 — 220 boys and 191 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 132. Of these deaths 24 were due to malignant neoplasms. There were 5 accidental deaths, 2 of which were due to drowning, one to a transport accident and one to an electric shock. There was one suicide.

Among the deaths of infants under one year, 2 were due to congenital malformation, 2 to prematurity, 2 to pneumonia and 2 to gastro-enteritis.

The total number of births registered during the week in the principal towns was 779 — 413 boys and 366 girls, of which 225 boys and 201 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 242, of which 112 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 14th SEPTEMBER, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

LIBRARY

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 40. Vol. C. Week Ending Saturday, 5th October, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns,* i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for dtaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 420 — 205 boys and 215 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 146. Of these deaths 4 were due to tuberculosis and 39 to malignant neoplasms. There were 4 accidental deaths, 2 of which were due to drowning and 2 to transport accidents. There was one suicide.

Among the deaths of infants under one year, 2 were due to congenital malformation and 2 to pneumonia.

The total number of births registered during the week in the principal towns was 808 — 407 boys and 401 girls, of which 219 boys and 198 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 241, of which 133 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 5TH OCTOBER, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 43. Vol. C. Week Ended Saturday, 26th October, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns,* i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 289 — 142 boys and 147 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 130. Of these deaths 2 were due to tuberculosis and 23 to malignant neoplasms. There were 6 accidental deaths, 2 of which were due to transport accidents and one to carbon monoxide poisoning.

Among the deaths of infants under one year, 6 were due to congenital malformation, 2 to prematurity, one to birth injury and one to pneumonia.

The total number of births registered during the week in the principal towns was 553 — 273 boys and 280 girls, of which 132 boys and 150 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 218, of which 118 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 26TH OCTOBER, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 46. Vol. C. Week Ended Saturday, 16th November, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns,* i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns, was 364 — 186 boys and 178 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 132. Of these deaths 4 were due to tuberculosis and 29 to malignant neoplasms. There were 2 accidental deaths, one of which was due to a drowning accident.

Among the deaths of infants under one year, one was due to pneumonia, one to birth injury, one to atelectasis and one to congenital malformation.

The total number of births registered during the week in the principal towns was 636 — 328 boys and 308 girls, of which 170 boys and 158 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 227, of which 119 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended 16TH NOVEMBER, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

Nos. 51, 52. Vol. C. Two Weeks Ended Saturday, 28th December, 1963. Price 2d. Net.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the two weeks to persons normally residing in the principal towns was 536 — 265 boys and 271 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 347. Of these deaths, 6 were due to tuberculosis and 57 to malignant neoplasms. There were 10 accidental deaths, 4 of which were due to transport accidents, 2 to carbon monoxide poisoning, one to drowning and one to burns. There was one suicide.

Among the deaths of infants under one year, 7 were due to congenital malformation, 5 to pneumonia, 3 to atelectasis, one to gastro-enteritis, one to birth injury and one to prematurity.

The total number of births registered during the two weeks in the principal towns was 1,025 — 516 boys and 509 girls, of which 272 boys and 264 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 519, of which 279 were registered in Dublin County Borough.

TABLE 1.—Births and Deaths registered during the two weeks ended SATURDAY, 28TH DECEMBER, 1963, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.
